AVID Awarded Two Residential Development Projects in Pasco County

Palm Harbor, Florida. AVID Group has recently been awarded contracts for the design of amenities for two new Pasco County residential developments.

AVID will provide landscape architecture and civil engineering services for the Stonebridge residential community for Chapel Creek Community Development District. The 900-home development will feature a 12-acre amenity that includes an aquatic facility and other recreational services. AVID will also design the entry feature for this new development.

AVID will provide landscape architecture services at the 7,000-acre Bexley Park residential community for Newland Communities. AVID will design community center amenities for the 12-acre facility as well as a lagoon pool, lap and volleyball pool, and a unique water slide.

About AVID

AVID Group provides comprehensive land development services to developers, corporations, government agencies, and land owners. Services offered include civil engineering, traffic engineering, planning, environmental sciences, water resources engineering, surveying and GIS. AVID's Design Studio has a staff of 10 landscape architects and designers who specialize in site and master planning, hardscape and landscape design, landscape lighting, and irrigation system and well design. The firm has offices in Palm Harbor, Holiday, Orlando, and Jacksonville, Florida.
